

Amendments to the Specification:

Please replace the Abstract with the following Abstract:

ABSTRACT

A probe includes ~~comprising~~ a first tube having ~~comprising~~ a first end positioned at a measurement location, and a second end; a second tube having ~~comprising~~ a first end, and a second end; a connector having ~~comprising~~ a transducer for connecting the second end of the first tube to the second end of the second tube; and a terminating element attached to the ~~said~~ first end of the second tube, wherein the second tube is of a length sufficient to substantially eliminate the incidence of resonance.
